THIS SOCIETY will receive proposals for Life Assurances, through the undersigned, its Agent for this City, on terms highly favorable to applicants.
Prospectuses may be had on application, together with blank forms of proposal, and such other information as parties may desire.
The following are among the advantages offered by this Institution:—
The capital of a large capital securely invested.
The peculiar Benefits secured by the principle of the Loan Department.
The payment of Premiums Half-Yearly or Quarterly, by parties assured for the whole term of Life.
Thirty Days are allowed after each payment of Premium becomes due, without forfeiture of Policy.
Part of the Capital is permanently and securely invested in the United States.
Wives may insure the lives of their husbands for their own and the benefit of their children.
The present of the Society is not necessary to a transfer of the Policy.
For all practical purposes, this Agency is essentially an American Company, strengthened by large sums the Capital actually invested in London, equally available to American as to British policy holders. All losses are settled by the New York Board, and paid by bills drawn on the London Office. Thus the Guarantee Fund in New York remains untouched, so that in case any dispute should arise between the society and policy holders, it can be argued upon, subject to the control of our Courts.
Medical Examiners fees are paid by the Society.

RIVERS AND HARBORS.

Congress met yesterday, and has done little else except organize, as we will soon get at work.

The elected "democratic" party have a majority in each House, and can pass such measures as they please. We shall do anything for the improvement of Western Rivers and Harbors.

It is said by some that only such measures as the Executive recommends will receive the sanction of the Senate, and that the Executive is opposed to a few of the Appropriations. It is also claimed to be a fact, that Gen. Pierce, in a conversation with Mr. Walker, declared that he was opposed to three-fourths of the Appropriations. We do not believe that Gen. Pierce ever made such a declaration, for he is too well informed upon the subject to make such a statement. We do not believe that he is opposed to any of the Appropriations. We do not believe that he is opposed to any of the Appropriations. We do not believe that he is opposed to any of the Appropriations.

"Let Congress Act First." A large Flood is now in progress in England, for the distribution of which Tracts through-out the United States are being held in almost every of the Associations and subscriptions are made.

The following is the list of the Committee appointed at one meeting.

	11,352

	5,000

The above amount wanted is $50,000. The Committee says that already quarters of this amount have been subscribed.

Gov. Ford has appointed Mr. Walker, and three other Democrats of the British Free Trade Meeting for five years to continue the good people of his blessings. Meantime the country is depressed and the market is gone—England can't buy our breadstuffs, and they are selling at a ruinous rate. And Gold Bonds is selling loadly in the prospect. So that nicely demonstrated that the good people citizens, Mr. candidate—for Presidency Walker, gone to England to get an increase subscription of $500,000 in the English manufacturing towns, for the purpose of making a slavery document into this benighted land, to enable farmers of this country that it will be the best for them to sell wheat at 40 cts. per bu. in foreign fact, that it would be better for them than otherwise to be paid in gold. We are American people enough—we all this stuff without examination.

We do not know [illegible] to be associated with Mr. HYDE in the editorial department of the paper.
